

How to enable student viewing of assignment scores on Student Portal

Q) My students say they can see their midterm/final grades on the student portal but not the grades for each assignment. What do I need to do?

A) Please follow the steps below in order to give the students access to see the assignment scores.

Faculty Portal > Select your course > Click “Set Student Access” under Course Utilities (on the right side of the screen) > Click “Show All” > Click “Save.”

The screenshot shows the Faculty Portal interface. On the left is a navigation menu with categories like Registration, Academic, and Course Management. The main content area is divided into three panels: Course Gradebook, Course Attendance, and Course Utilities. In the Course Utilities panel, the 'Set Student Access' option is highlighted with a red box.

This screenshot shows the 'Set Student Access' configuration page. At the top, there are three buttons: 'Save', 'Show All', and 'Show None'. Red arrows labeled '2' and '1' point to the 'Show All' and 'Save' buttons respectively. Below the buttons is a table with the following data:

| Course Option | Show |
|----------------------|-------------------------------------|
| Discussion Board | <input checked="" type="checkbox"/> |
| E-mail: Faculty | <input checked="" type="checkbox"/> |
| E-mail: All Students | <input checked="" type="checkbox"/> |
| E-mail: Groups | <input checked="" type="checkbox"/> |
| Course Information | <input checked="" type="checkbox"/> |
| External Links | <input checked="" type="checkbox"/> |
| Course Announcements | <input checked="" type="checkbox"/> |
| Course Documents | <input checked="" type="checkbox"/> |
| Course Assignments | <input checked="" type="checkbox"/> |
